

Captain Richard Morris
Director of Global Safety, Quality Assurance & Compliance Monitoring
Civil Aviation Training
CAE

An experienced pilot and instructor, Richard has been involved in pilot training and aviation management for over 20 years, in an aviation career spanning the last 25 years.

During his career, he has held Training, Safety and Operations management positions in some of the world's leading airlines, has run Training Organizations and has worked as an Aviation Safety Inspector for a National Aviation Authority. He is an active pilot and has been involved in the introduction of concepts such as EBT and MPL. In his current role, he is responsible for leading CAE's Global Safety, Quality Assurance and Compliance Monitoring Department that covers all of the CAE global training centres and is the approved Safety, Quality Assurance and Compliance Monitoring Postholder for a number of national regulatory bodies.

Richard holds a Bachelor of Science degree in Aeronautics and an MBA, he sits on the Board of the Air Charter Safety Foundation and is a Fellow of the Royal Aeronautical Society.
