

SCOTT TREPINSKI
Senior Vice President, Safety, Security and Environmental
Envoy Air

Scott Trepinski is the Senior Vice President of Safety, Security, and Environmental. He fills the position of the Director of Safety (DOS), as required by § 119.65 of the Federal Aviation Regulations for Envoy Air, Inc. Scott has over 35 years of aviation experience and is type-rated in three commercial aircraft. Scott has served as a presenter in the plenary multiple times at the bi-annual Aviation InfoShare, presented at the Annual Safety Management System (SMS) Industry Forum, and served on national aviation industry panels with regulators and developers of SMS. Scott has a bachelor's degree in systems Engineering from the University of Arizona, a master's degree in aviation safety from the University of Central Missouri, and a Ph.D. in education from Liberty University with an emphasis on aviation safety culture. Additionally, Scott is an adjunct professor teaching various aviation safety courses at both Kansas State University and the University of Central Missouri. Scott began his career in fiber optic engineering after completing his bachelor's degree while maintaining currency in aviation. In early 2001, Scott followed his original passion and fully engaged in aviation, leaving engineering behind. When Scott is not actively striving to enhance the cultural maturation of organizational SMS, he spends time enjoying water sports, swimming, and, most importantly, as a dedicated husband and father of three. Scott recently developed a Podcast series on organizational safety culture and is creating one dedicated to uncovering the barriers to cultural progression in large organizations. Scott can be reached at trepinski@aa.com
